

Orchard Farm Day Nursery & Pre-School

WHERE CHILDREN LEARN TO GROW AND DEVELOP IN A UNIQUE ENVIRONMENT

Introduction;

Our Henley on Thames nursery opened its doors in June 2004, and is set in 14 acres of inspiring beautiful English countryside. Our aim is to have happy, confident and caring children, who are motivated to learn through their well planned and exciting activities using both our indoor and outdoor environment.

The nursery is beautifully decorated with light airy rooms, making sure that a safe and secure environment is provided at all times. All the rooms are well equipped and provide the children with the opportunity necessary to arouse curiosity, the freedom of choice and the motivation to learn.

Ducklings Room

The Baby Room

Each room has access to its own garden area, which is equipped to the age of the individual children.

In the grounds we have a mini farm, where the children, with parents consent, can have supervised access to help feed and care for the animals which include horses, goats, ducks, chickens, rabbits.

At Orchard Farm we also have the added facility of a play barn where the children will have additional space for drama, music and movement and somewhere to play on wet days, we also have a new purpose built pre school building for the 3-5 year old children.

Orchard Farm provides care for children aged from 3mths to 5 years. Each individual child is provided with well balance home cooked meals throughout the day this includes breakfast, lunch and tea, special dietary needs can also be catered for.
